Signed By: keith.s.forman@navy.mil

Dear Mr. Wright,

After consulting with Mr. Edwards (RASO), I offer the following clarification on the two points you brought to my attention:

1. Was Mr. Jensen implicated in any of the investigations currently ongoing at Hunters Point regarding allegations of tampering with the soil samples at Hunters Point?

Answer: To the best of my knowledge, Mr. Jensen was NOT implicated in any of the investigations currently ongoing at HPNS regarding allegations of tampering with soil samples at HPNS.

2. Did Mr. Jensen by act or by omission, have a negative effect on the trustworthiness of the soil samples collected at Installation Restoration Site 6, located at Former Naval Station Treasure Island, used by EMB to render a professional judgment resulting in the issuance of an RURR for IR Site 6?

Answer: To the best of my knowledge, Mr. Jensen did NOT have a negative effect on the trustworthiness of the soil samples collected at IR Site 6, former NSTI -- either by act or omission -- used by EMB to render a professional judgment resulting in the issuance of a RURR Letter for IR Site 6.

I look forward to the resulting RURR Letter for Site 6; please contact me at your convenience if I can be of further assistance.

V/r,
Keith Forman

Subject: [Non-DoD Source] RE: Tt Personnel working on IR Site 6 at NAVSTA TI

Good afternoon Mr. Forman,

The Environmental Management Branch (EMB) of the California Department of Public Health (CDPH) has completed its technical review of the Final Final Survey Report Installation Restoration Site 6, Naval Station Treasure Island, San Francisco California, issued September 2016.

In light of the allegations of soil sampling tampering at Hunters Point by the contract firm Tetra Tech EC. Inc., EMB has requested; and received from Department of Navy (DON), a compilation of those Tetra Tech EC personnel who participated in the soil sample activities as supervisors and/or sampling crews at Hunters Point where the alleged improper activities occurred; along with a compilation of those Tetra Tech EC personnel who participated in the soil sample activities at Installation Restoration (IR) Site 6 located at Former Naval Station Treasure Island.

A review of the lists provided indicates that a single individual, Mr. Jarvis Jensen, participated in soil sampling activities at both locations. In order for EMB to issue a Recommendation for Unrestricted Radiological Release (RURR), we ask for clarification on the following points:

1. Was Mr. Jensen implicated in any of the investigations currently ongoing at Hunters Point regarding allegations of tampering with the soil samples at Hunters Point?
2. Did Mr. Jensen by act or by omission, have a negative effect on the trustworthiness of the soil samples collected at Installation Restoration Site 6, located at Former Naval Station Treasure Island, used by EMB to render a professional judgment resulting in the issuance of an RURR for IR Site 6?

EMB appreciates your cooperation in the past and looks forward to resolving this issue.

Matt,

I am forwarding you the list of TtECI folks who worked on the Site 6 FSSR project, per your request. I left the email train intact, so that you could see this is coming directly from Shanti Montgomery, the TtECI site lead for this project.

I hope this helps; please let me know at your earliest opportunity if the Navy can provide you with any other info to help you review/make a determination on the Site 6 FSSR.

Thanks!

KF

KF/DC,

Personnel that contributed to the Site 6 FSSR as requested.

Management:

- Steven Adams (RSO)

- Shanti Montgomery

Field Staff:

- Dennis McWade

- Andrew Gorman

- Rich Kanaya

- George Chiu (RSOR)

Project/Field Support Staff:

- Sam Ho

- Luis Pena

- Jarvis Jensen

Rad Techs:

- Blake Willett

- George Economos

- Chad Bradfield

Would you like me to forward to Matt?

Thanks,

R. Louie Cardinale, PE
(619) 524-4564
